The diagram is a detailed schematic of the U5007 audio amplifier. It shows the internal circuitry of the U5007 chip, including various transistors, resistors, and capacitors. The chip is labeled 'U5007' and has a pinout diagram at the bottom. The diagram also shows the external components connected to the chip, such as the input signal, power supply, and output speaker. The diagram is labeled with various component values and pin numbers. A large watermark 'am' is visible in the background.
